**Re: Notice of Referral to Environmental Assessment – Uravan Minerals, South Boomerang Lake Mineral Exploration**

On August 13, 2007, the Mackenzie Valley Environmental Impact Review Board (the Review Board) met to review the preliminary screening decision for the application to amend Uravan Mineral's Land Use Permit (MV2006C0008). The Review Board has determined that there is cause for potential public concern over the proposed project and under its authority (s. 126 (3) of the *Mackenzie Valley Resource Management Act*) has referred the project to environmental assessment under its own motion.

Until the assessment is concluded no permit or other authorization required for development under territorial or federal law can be issued. The Review Board will create a public registry for this file, where all pertinent information will be held. The public registry will be available online at [www.mveirb.nt.ca/registry](http://www.mveirb.nt.ca/registry). Details of the assessment process are described in the Review Board's *Guidelines for Environmental Impact Assessment*, available online at [www.mveirb.nt.ca](http://www.mveirb.nt.ca). Information on past EAs is available on the same site.

Attached to this letter is an application to stay on the distribution list for this EA. Please take the time to complete this form if you or your organization wishes to continue to receive updates on this project.

Please do not hesitate to contact me at any time with questions regarding our process. I can be reached at (867) 766-7066 or [ttestart@mveirb.nt.ca](mailto:ttestart@mveirb.nt.ca).

Sincerely,

Tawanis Testart  
a/Environmental Assessment Officer  
Mackenzie Valley Environmental Impact Review Board
