Deze' Energy Corp-Taltson Hydroelectric Expansion Project

Re: Meeting with Deze' Energy Corp – February 25, 2009

On February 25, 2009, Review Board staff met with representatives from the Deze' Energy Corp. to discuss the upcoming submission of its Developer's Assessment Report (DAR) and also to discuss timelines for the conformity check and information requests (IRs). Deze' Energy anticipates submitting the DAR by Friday, February 27, 2009.

Deze Energy requested that the Review Board clarify when the conformity check would be complete and also when the Review Board anticipates the IR's to be issued and technical meetings to be scheduled. Outside of any major issues with the DAR, Review Board staff anticipates that EA should progress according to the work plan schedule set out in the Terms of Reference issued for this environmental assessment. This document can be accessed at www.reviewboard.ca registry.
