Deze Energy Corporation Ltd., Taltson Hydroelectric Expansion

Re: Phone Call from Don Jaque– May 22, 2009

Mr. Don Jaque of Ft. Smith phoned my office on Tuesday, May 19, 2009 to discuss the Taltson Hydroelectric Expansion environmental assessment. Mr. Jaque had a number of questions relating to the developers activities and efforts in relation to community engagement. Mr. Jaque expressed to me that he would like to see more from the developer in respect to their efforts to engage with communities and inform them of the proposed project and its potential effects.

I suggested that Mr. Jaque submit any comments he had on the environmental assessment to the Review Board as a written submission. I also suggested that he may bring his comments to the developer directly should he wish.
