Re: Support for the Development and Operation of Prairie Creek Mine

Dear Mr. Paradis;

This letter is to confirm that we the Liidlii Kue First Nation are in support of the development and operation of the Prairie Creek Mine as long as it is carried out in compliance with all applicable regulations and laws and in an environmentally responsible manner.

We recognize that this development will bring significant economic benefits to the Dehcho region and we will endeavour to work with Canadian Zinc Corporation towards maximizing any of the economic opportunities the Prairie Creek Mine Operations may present.

Currently LKFN has no means to meet with CZN officials and the other affected communities to discuss our common interests with regards to this resource development project. Until such time we cannot hold meaningful talks without proper funding from federal sources.

Mahsi,

Chief Keyna Norwegian
Liidlii Kue First Nation
