Alistair,

The Dehcho First Nations are requesting a one-week extension to the October 14th deadline to submit comments on the CZN EA Scoping. As the DFN technical representative on the CZN file, I am unable to attend the YK technical scoping session due to prior commitments. DFN requests the extension in order to allow time to receive and review a MVEIRB summary report on the session. Can you please confirm that the Board will circulate a summary report?

We are also experiencing ongoing difficulty accessing the Public Registry on the CZN EA and this is hampering our ability to access and review relevant documents in a timely manner.

thank you,

--
