Re: Deadline for Technical Reports – May 21, 2014

The next phase of the Environmental Assessment of the Snap Lake Amendment Project is the submission of technical reports by parties; **the deadline is May 21, 2014.**

Technical Reports should clearly provide your views regarding which parts of the Project will affect which valued components, and how. Please provide supporting references where possible. Parties must include a one-page plain language summary of their report.

Instructions and further information regarding the format of technical reports can be found by reading:
