Dear Minister Bennett,

Re: Rectification of Clerical Errors - EA1415-01 Report of Environmental Assessment and Reasons for Decision for the Prairie Creek All Season Road, Canadian Zinc Corp.

On September 12, the Mackenzie Valley Environmental Impact Review Board (Review Board) submitted its *Report of Environmental Assessment and Reasons for Decision* (Report) for the Prairie Creek All Season Road. Following submission of the Report, Review Board staff hosted two meetings, on [September 18](#) and [September 27](#), with parties and the developer to present the findings and measures in the Report. Upon investigation of questions raised at these meetings, several clerical errors were identified in the REA. In the Review Board's view, the errors are minor, but should be rectified to avoid confusion and most accurately represent the Board's decision.

The attached table provides a summary of the clerical errors and the associated corrections. The Review Board is not updating the Report on the public registry at this time, but is prepared to do so after the ministers' decision.

If you have any questions, please contact Executive Director Mark Cliffe-Phillips at mcliffephillips@reviewboard.ca or 867-766-7055.

Sincerely,

JoAnne Deneron
Chairperson
