GNWT hearing presentation

- **Day 2 technical hearing – Watercourse crossings**
 - Recommendation number ordering is from GNWT technical report

Watercourse crossings – monitoring GNWT Recommendation #9

GNWT conclusion:

- If all regulatory requirements and Canadian Zinc commitments are fulfilled, significant adverse impacts to watercourse crossings are unlikely.

GNWT recommendation:

- Establishment of a watercourse monitoring program during construction and road. GNWT agrees that the specifics of this monitoring can be discussed during the regulatory phase.
