Re: Notification of LiDAR data

The Review Board has received a pdf copy of the LiDAR data for the proposed all season road alignment from the Canadian Zinc Corporation (CanZinc). The LiDAR images are strictly for non-commercial purposes, unless it is directly related to activities on behalf of, and with the permission of, CanZinc.

The LiDAR file sizes are too large to place on the Review Board public registry. This Note to File advises the distribution list that the data is available at the Review Board office. If individuals or organizations would like a copy of the LiDAR data please contact Sachi De Souza.

If you have any questions the contact for the Project is:
