### **Re: Second round information requests (IRs) – deadline extension for IRs related to Undertaking #7**

On August 24, 2016, the Canadian Northern Economic Development Agency's Northern Projects Management Office (NPMO), supported by Fisheries and Oceans Canada and Parks Canada, advised the Review Board that, in their opinion, First Nations engagement requirements and technical components of undertaking #7 had not yet been completed. NPMO's letter to the Board goes on to state that the technical components (i.e., additional baseline information on fish and fish habitat) are required in order to develop second round information requests.

After subsequent communications, CanZinc submitted additional information regarding the technical components of undertaking #7 to the Review Board on September 6, 2016. In order to allow adequate time for parties to review this additional information and formulate IRs, the deadline for IRs related to undertaking #7 (potential impacts to fish and fish habitat, particularly relating to the re-alignment of Sundog Creek) is now extended to **October 7, 2016**, for all parties.

The original **deadline of September 23, 2016**, for parties to submit second round IRs will remain **for all topics except those relating specifically to undertaking #7**.

The contact for the Prairie Creek Mine All Season Road project from September 9-28, 2016, is EA Officer Catherine Fairbairn at (867) 766-7054; or cfairbairn@reviewboard.ca.
