Hi David,

Since you won't be able to talk before March 30th I would like to let you know about a few key process items.

1. Document submission:
 - a. Please submit 10 hard copies of the DAR. Of the 10, three should also include the supporting appendices.
 - b. Please submit 10 full digital copies on a USB stick.
 - c. The document submission should include data tables in excel format.
2. Adequacy review – the Review Board will be applying an adequacy test similar to that done for the Jay Project. The purpose of this stage is to determine the adequacy of the information presented in the DAR relative to what was requested in the Terms of Reference. (A description of the adequacy test for the Jay project can be found here: http://www.reviewboard.ca/upload/project_document/EA1314-01_Note_to_File_-_Adequacy_Review_vs_Conformity_Check.PDF)
3. When submitting the DAR, if you have any technical experts which were retained for the purposes of the DAR please provide their CVs.

If you have any questions or would like to set up a time for a teleconference to discuss this, please let me know.

Thanks,

Sachi

Sachi De Souza

Are you available this week? When is a good time to have a teleconference before the DAR submission?
