## Note to File

EIR0607-001

Gahcho Kué Diamond Project, De Beers Canada

---

To Parties:

**Re: Information requests round 2 – parties to suggest topics**

The Panel thanks all participants for their contribution to the technical meetings for the Gahcho Kué Project held May 22-25.

The Work Plan for the Environmental Impact Review of the Gahcho Kué Project allows for a second round of information requests if the Panel believes that parties need this step to obtain outstanding information from the developer.

Parties are asked to submit a brief list of topics or issues to the Panel that require further information from the developer. The Panel will decide whether to proceed with a second round of information requests and which topics should be the focus of those information requests.

Please submit your suggested topics for a second round of information requests to the Panel by June 5, 2012.

For your information, the Work Plan is found here:
