Re: Follow up information required from second pre-hearing conference

Review Board staff held a pre-hearing conference on August 9, 2019 to discuss hearing logistics and time allotments for interventions and questioning during the public hearings for this environmental assessment. In order to finalize the hearing agenda, as discussed during the pre-hearing conference, please provide:

1. the estimated time required for your intervention presentation
2. which interveners you plan to question, and how many questions you have for each intervener
3. the estimated number of people representing your group

Please submit this by August 14th, 2019. Review Board staff will make their best efforts to accommodate requests but cannot guarantee that the requested time will be given to each intervener. The final hearing agenda is subject to change any time prior to the start of the hearing, at the discretion of the Chair.
