Note regarding referenced report from TASR Technical Session Commitment 3 – Caribou distribution data

Further to a request from the Wek'èezhì Renewable Resources Board, the GNWT is submitting Cluff et al.'s 2017 unpublished draft report that was referenced in GNWT's response to commitment 3 for posting to the MVEIRB public registry in two parts.

Cluff, H.D., Croft, B., and Boulanger, J. 2017. Calf Production and Adult Sex Ratio in the Bathurst and Bluenose East Herds of Barren-Ground Caribou 2006-2016. Unpublished draft Manuscript Report. Department of Environment and Natural Resources, Government of the Northwest Territories, Yellowknife, NT.

Please note that this report is incomplete, it has not been finalized and significant changes are expected in the months ahead. The current version of the draft report is primarily useful for the maps.
